RFP for Banking Services Depository

I. Introduction

The City of Dalworthington Gardens, Texas (the "City") is seeking bids from eligible and qualified financial institutions to serve as the Banking Services Depository (the "Depository") for the public funds of the City. This includes the basic services of receiving deposits, paying items, wiring out funds, receiving wired funds, stop payments, time deposits, and other normal business banking activities. The agreement will not cover any investment transaction activities other than safe keeping services and other potential items listed in Section VI Investment Activities. The City plans to manage its own investment portfolio per its investment policy (see Attachment B).

The philosophy incorporated into this Request for Proposal (RFP) is to solicit comparable market charges for services provided and to pay for services provided by the Depository. The City also places importance on the interest paid on daily deposits above any minimum requirements. The RFP specifications and evaluation criteria have been developed and are described herein. To assure a close working relationship, to facilitate available services, and to support local business, the entity may give strong preference to those banks with full-service capabilities within close proximity to or within the City limits.

This RFP is intended to serve as the Bid Form (see Attachment A) and is intended to become part of the Depository Agreement. There are several blanks to fill in and questions to be answered. Any alterations, changes, or deletions to the RFP may be reason for the City to disregard and reject the proposal. Any such alterations, changes, or deletions must be clearly identified as such, with reason therefore, and alternate language proposed by bidder, if any, clearly stated and inserted in the appropriate place in the bid submission. Exceptions to the specifications will be considered only if listed in the proposal. Any terms in this RFP which are in conflict with Chapter 105, as amended, of the Texas Local Government code shall be deemed superseded by such chapter. Conflicts discovered between this RFP and state law should be noted in the proposal form. The City will disregard any exceptions that may conflict with Chapter 105 of the Local Government Code. The successful financial institution shall be required to execute a Depository Agreement with the City incorporating the terms, conditions, and specifications of this RFP.

Bids must be complete, specifically address the requirements described in this document, and include all requested information as detailed in the Submission Checklist to receive full consideration by the City in the evaluation/selection process. During that evaluation/selection process, the City reserves the right to request additional information or clarification from bidders, or to allow corrections of errors or omissions.

Questions regarding this RFP should be directed to Kay Day, Finance Director, City of Dalworthington Gardens, 2600 Roosevelt Dr., DWG, TX 76016, telephone (682) 330-7421, e-mail finance@cityofdwg.net.

Contact with any personnel, officers, or officials of the City of Dalworthington Gardens, other than the designated official regarding this RFP may be grounds for elimination from the selection process. No officer or employee of the City of Dalworthington Gardens shall have a financial interest, direct or indirect, in any contract with the City of Dalworthington Gardens.

Term of Contract

The contract period shall be for three (3) years beginning October 1, 2024 and thereafter until the successor depository shall have been duly selected and qualified according to state laws, with an option to extend the contract for two additional one-year periods, subject to the mutual agreement of both parties. The Depository contract shall provide that the City reserves the right to terminate the agreement at any time, upon sixty (60) days prior written notice of its intent to terminate any agreement. Further, the agreement will have a ninety (90) day extension period for transition to the new depository bank at the end of the term if needed.

Proposal Objectives

The banking services described in this RFP are directed toward five (5) major goals:

- To seek an institution that is capable of providing banking services as required while maintaining the safety and security of the City's financial resources;
- To maximize the total dollars earned by the City on account balances in order to be prudent and effective custodians of financial resources;
- To cost efficiently compensate the Depository for services provided while remaining subject to competitive forces in the market place;
- To develop and maintain a good working relationship with the Depository; and
- To fully comply with the requirements of the Texas Local Government Code Chapter 105, as amended.

As a public entity, the safety of the funds and assets of the City is paramount. The use of technology to minimize manual or time-consuming operations is a continuing effort and the successful applicant will be expected to bring new ideas and technologies to the City's attention throughout the contract period. The City intends to earn the best reasonable yield on its fund in all time or demand accounts.

The City requires the Depository to be fiscally strong and able to provide the required services on an uninterrupted basis. City funds are public funds and all under provisions of the Public Funds Investment Act and the Public Funds Collateral Act (Texas Government Code Chapters 2256 and 2257) and are further restricted by the City's Investment Policy. The selection of a depository by the City is further governed by Chapter 105 of the Texas Local Government Code.

CITY OF DALWORTHINGTON GARDENS

INVESTMENT POLICY

1. Policy Statement

It is the policy of the City of Dalworthington Gardens (City) that the investment of public funds shall be handled as its highest public trust. Investments shall be made in a manner which will provide the maximum security of principal invested through limitations and diversification while meeting the daily cash flow demands of the City and conforming to all applicable state and City statutes governing the investment of public funds. The receipt of a market rate of return will be secondary to the requirements for safety and liquidity.

It is the intent of the City to be in complete compliance with local law, the Public Funds Investment Act and the Public Funds Collateral Act. Specific investment parameters for the investment of public funds in Texas are stipulated in the Public Funds Investment Act (“PFIA”), Chapter 2256, Texas Government Code. The Public Funds Collateral Act, Chapter 2257, Texas Government Code, specifies collateral requirements for deposits of all public funds. The Interlocal Cooperation Act, Chapter 791, Texas Government Code, authorizes local governments in Texas to participate in a Texas investment pool established thereunder.

2. Scope

This investment policy applies to all financial assets and funds held by the City. These funds are accounted for in the City's Annual Financial Report.

- A. General Fund
- B. Special Revenue Funds
- C. Debt Service Funds
- D. Capital Project Funds
- E. Proprietary (Enterprise) Funds
- F. All Other Funds

Any new operating or bond funds created by the City will be managed under the provisions of this Policy unless specifically exempted by the City Council and this Policy.

3. Objectives and Strategy

It is the policy of the City that all funds shall be managed and invested with four primary objectives, listed in order of their priority: *safety, liquidity, diversification and yield*. These objectives encompass the following:

Safety [PFIA 2256.005(b)(2)]: Safety of principal is the foremost objective of the investment program. Investments of the City shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

Liquidity [PFIA 2256.005(b)(2)]: The City's investment portfolio will remain sufficiently liquid to enable the City to meet all operating requirements which might be reasonably anticipated. This is accomplished by structuring the portfolio so that investments mature concurrent with cash needs to meet anticipated demands. Because all possible cash demands cannot be anticipated, a portion of the portfolio will be invested in shares of money market funds or local government investment pools that offer same-day liquidity.

Diversification [PFIA 2256.005(b)(3)]: Diversification is required in the portfolio's composition. Diversification of the portfolio will include diversification by maturity and market sector and will include the use of a number of broker/dealers or banks for diversification and market coverage.

Yield [PFIA 2256.005(b)(3)]: The City's investment portfolio shall be designed with the objective of attaining a reasonable market yield throughout budgetary and economic cycles, commensurate with the City's investment risk constraints and the cash flow characteristics of the portfolio. Return on investment is of secondary importance compared to the safety and liquidity objectives described above.

4. Delegation of Authority [PFIA 2256.005(f)]

Authority to manage the City's investment program are derived from a Resolution of the City Council, wherein, the City Administrator and Finance Director are designated as the Investment Officers of the City and are responsible for all investment management decisions and activities. The investment authority granted to the investing officer(s) is effective until rescinded by the Council or termination of employment. No person may engage in an investment transaction or the management of City funds except as provided under the terms of this Investment Policy as approved by the City Council.

Procedures will be developed for the operation of the investment program which is consistent with this Investment Policy. Procedures will include safekeeping, wire transfer agreements, banking service contracts and collateral/depository agreements.

5. Prudence Person Standard [PFIA 2256.006]

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. This standard states that:

"Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived".
